

PYAE PHYO WIN

Full Stack Developer

Contact

Phone

09-956391476

Email

pyaephyowin706@gmail.com

Address

NO (10) A, BO TAYZA STREET, BO HTUN SAN
WARD, DAWBON TOWNSHIP, YANGON

Education

Final Year (B.Sc Hons Computing)

University of Greenwich (UK)
Awarded in 26 February 2026

Level 5 Diploma in Computing

KMD Institute
Awarded in 25 October 2024

Level 4 Diploma in Computing

KMD Institute
Awarded in 27 October 2023

Certifications

- Programming Basic Course (Fairway)
- Professional Web Developer (Fairway)

Languages

- Burmese (Native)
- English (Intermediate)

Soft Skills

- Analysis and research skills
- Communication and teamwork

Work Experience

AI MODEL DEVELOPER & TRAINER

MY DAY THU KYWAL

2025
January
-
2025
July

- Designed and implemented custom machine learning models using frameworks like TensorFlow, PyTorch, and scikit-learn.
- Trained deep neural networks for tasks such as classification and object detection.
- Applied transfer learning and fine-tuning techniques on pre-trained models (e.g., BERT, GPT, YOLO, ResNet) for domain-specific tasks.
- Collected, cleaned, and annotated large datasets from various sources.

JUNIOR PROGRAMMER

Fusion Solution Co., Ltd.

2025
August
-
Present

- Designed and developed DOVA (Document OCR Vision Agent), implementing OpenAI integrations and custom OCR engines for high-accuracy raw text extraction.
- Contributed to the development and optimization of Jarviz (HR Software), building robust backend processes and frontend features.
- Engineered core cryptographic verification flow and REST API endpoints for Veracity (Digital Signature).
- Developing REST APIs and background jobs using C# (.NET), Hangfire, and MSSQL.

Skills

- Language - HTML, CSS, PHP (Laravel), C# (.Net), TypeScript, JavaScript, Python, Kotlin, Node.js
- Framework - Bootstrap CSS, Tailwind CSS, Vue, React, React Native
- Database - MySQL, MSSQL, PostgreSQL
- Tools - Git, Github, Cursor, Github Copilot, Docker
- AI/ML - Prompt Engineering, Prompt Evaluation, Structured Output (JSON Mode), Streaming Responses, Multimodal LLMs (Vision), Tool Use, RAG and Agentic Search, MCP Server, MCP Client.
